Baldwin Cortes Hernandez

has successfully completed the online Specialization

Mastering Azure Databricks for Data Engineers

Congratulations on completing Mastering Azure Databricks for Data Engineers! You have gained comprehensive skills in working with Azure Databricks for data engineering tasks. This course covered setting up your environment, working with Delta Lake, managing data pipelines, and leveraging Databricks automation features. Through hands-on projects, including building scalable data pipelines, managing Unity Catalog, and optimizing Delta Tables, you have developed the expertise to tackle complex data engineering challenges. This certification signifies your proficiency in Azure Databricks, equipping you with the skills to efficiently manage and scale data engineering solutions in the cloud.
